Johanna Obeck

Nature's Serenity in Oils

A professional artist since 1969, Johanna is an accomplished landscapist and waterfowl artist who has gradually broadened her subject matter to include flyfishing scenes and other wildlife species in their natural habitats. A love of all things beautiful, she is constantly pulled by the peaceful scenes and graceful creatures that surround her at home and wherever she travels.

Over the years, Johanna earned Artist of the Year honor from several East Coast chapters of Ducks Unlimited and placed prominently in state trout and salmon stamp competitions. She exhibits primarily at the Waterfowl Festival in Easton, Maryland and the Southeastern Wildlife Exposition in Charleston, South Carolina. Although Johanna has published a few limited-edition prints, she deals primarily in original oils.
